

**Wie rechnest du hier geschickt?**

$$1100 + 2900 = \blacksquare$$

# Lösung

$$\text{z. B. } 1\,100 + 2\,900 = \blacksquare$$

$$1\,100 + 900 = 2\,000$$

$$2\,000 + 2\,000 = 4\,000$$

$$\text{oder z. B. } 1\,100 + 2\,900 = \blacksquare$$

$$1\,000 + 2\,000 = 3\,000$$

$$100 + 900 = 1\,000$$

$$3\,000 + 1\,000 = 4\,000$$

**Wie rechnest du hier geschickt?**

$$1200 : 30 = \blacksquare$$

$$1200 : 30 = 40$$

denn

$$120 : 3 = 40 \text{ (Nullen weglassen)}$$

$$1200 : 30 = 40 \text{ (Nullen hinzufügen)}$$
