The first puzzle is a circle divided into four quadrants. The top-left quadrant contains the number 6, the top-right contains 1, and the bottom-right contains 3. The bottom-left quadrant is empty. There are empty boxes at the top, bottom, left, and right of the circle. Above the top box is a box containing the number 7, and below the bottom box is a box containing the number 5.

The second puzzle is a circle divided into four quadrants. The top-left quadrant contains the number 2, and the bottom-right contains 3. The top-right and bottom-left quadrants are empty. There are empty boxes at the top, bottom, left, and right of the circle. Above the top box is a box containing the number 6, and below the bottom box is a box containing the number 9.

The third puzzle is a circle divided into four quadrants. The top-left quadrant contains the number 5, and the bottom-left contains 5. The top-right and bottom-right quadrants are empty. There are empty boxes at the top, bottom, left, and right of the circle. Above the top box is a box containing the number 9, and below the bottom box is a box containing the number 6.
