

Water Is Life

Some people say water is life. We all need water to live.

People need water to drink.
They need it to grow and
make food. People need
water to keep clean too.

Water Needs

People need at least 8 **liters** (2 gallons) of water each day. That is enough for drinking and cooking. But to stay clean, it takes more than twice that amount of water.

Not all people have clean water. That is a big problem in the world.

Dirty water flows out of these pipes.

The water in this lake is dirty.
